## COMPANY BACKGROUND

Regent Personnel is a London-based company that was established in 2006 by its two Directors, both of whom have over 20 years of experience in the medical recruitment industry.

Our company was founded to fulfil the specialised needs of our international clients in sourcing Tier 1 Medical Consultants, Medical Directors, Leads, and Heads of Department.

We recognised that traditional recruitment techniques were not effective in recruiting senior medical clinicians, we developed a unique approach that involved headhunting and direct outreach.

At Regent Personnel, we pride ourselves on our unwavering commitment to supporting both our clients and candidates throughout the recruitment process. We have a proven track record of providing top-tier Medical Consultants to both government and private clients in the Gulf region.

As a flexible and adaptive organisation, Regent Personnel is committed to meeting the needs of our clients.

## QUALITY PROCEDURES AND STANDARDS

At Regent Personnel, we prioritise meticulous attention to detail when it comes to verifying, collecting, and submitting supporting documents, professional references, and related details for our clients. We adhere strictly to the required format set by each client to ensure full compliance.

Upon identifying a suitable candidate for our client, we submit their Curriculum Vitae in a standardised format that aligns with the Personnel Qualification Requirement (PQR).

We rigorously vet all our candidates, establishing their clinical experience, conducting a thorough employment history check, and verifying references.

We also verify their current Medical Registration status to guarantee complete compliance.
